

2-Amino-6-methoxybenzothiazole

Art. ID TRC-A611445-1G
Unit 1 g
Deliverydetails No Dangerous Good /not restricted

Description

Application Notes: 2-Amino-6-methoxybenzothiazole is an intermediate used to prepare novel series of Schiff bases and 4-thiazolidinones. It is also used in the synthesis of 2-cyano-6-methoxybenzothiazole. /// References: Patel, N., et al.: Saudi Pharma. J., 18, 129 (2010)| Toya, Y., et al.: Bull. Chem. Soc. Jpn., 65, 392 (1992)
