

5-Amino-2H-isoquinolin-1-one

Art. ID TRC-A612905-25MG
Unit 25 mg
Deliverydetails No Dangerous Good

Description

Application Notes: 5-Amino-2H-isoquinolin-1-one is a reactant used in the synthesis of glucoorticoid receptor agonists as well as PARP inhibitors used in the treatment of tumors. /// References: Berger, M. et al.: Bioorg.
