

3-Amino-5-methylisoxazole

Art. ID TRC-A616920-2.5G
Unit 2,5 g
Deliverydetails No Dangerous Good /not restricted

Description

Category: Amines, Heterocycles, Impurities, Pharmaceuticals, Intermediates and Fine Chemicals, Sulfur and Selenium Compounds /// Appearance: Yellow to Dark Yellow Solid /// Application Notes: Sulfamethoxazole (SMX) (S699086) impurity. A degradation product in water by a bioluminescence method during application of the electro-Fenton treatment. /// References: Herber, T., et al.: Toxicol.
