

4-Acetamidophenyl beta-D-Glucuronic Acid Methyl Ester

Art. ID TRC-A158495-50MG

Unit 50 mg

Description

Category: Carbohydrates and Derivatives, Intermediates /// Appearance: Pale Orange Solid /// Application Notes: 4-Acetamidophenyl beta-D-Glucuronic Acid Methyl Ester is an intermediate to synthesize Acetaminophen (A161220) metabolites (1).
