

Acetaminophen Dimer

Art. ID TRC-A161235-250MG
Unit 250 mg

Description

Category: Aromatics, Impurities, Pharmaceuticals, Intermediates and Fine Chemicals /// Appearance: Gray Pink to Purple Brown Solid /// Application Notes: Acetaminophen Dimer is an oxidatively couple dimer of Acetaminaphen (A161220), an analgesic and antipyretic agent used as a pain reliever to treat headache, muscle aches, and arthritis (1). Acetaminophen Dimer along with other p-acetamidophenol analogs were used to determine peroxidase activities (2,3).
