

6-[(3R,4R)-3-(Acetyloxy)-N,4-dimethyl-6-oxo-L-norleucine] Cyclosporin A

Art. ID TRC-A168650-10MG

Unit 10 mg

Description

Category: Peptides, Pharmaceuticals, Intermediates and Fine Chemicals /// Appearance: Off-White to Pale Yellow Solid /// Application Notes: Intermediate for the preparation of Cyclosporin derivatives for the treatment of immune disorders. /// References: Billich, et al.: J. Biol. Chem., 262, 1725
