

5-Amino-1-phenylpyrazole

Art. ID TRC-A626220-250MG
Unit 250 mg
Deliverydetails No Dangerous Good

Description

Category: Aromatics, Inhibitor /// Appearance: White to Light Orange-Yellow Solid /// Application Notes: 5-Amino-1-phenylpyrazole is a reagent that is used in the synthesis of sulfaphenazole(S689020) derivatives as inhibitors and tools for comparing active sites of human liver cytochromes P 450 2C subfamily. /// References: Vestergren, A.L.S. et al.: Mol.
