

5-Amino-1,2,3-thiadiazole

Art. ID	TRC-A630295-250MG
Unit	250 mg
Deliverydetails	No Dangerous Good

Description

Category: Amine, Miscellaneous Reagents, Sulfur and Selenium Compounds /// Appearance: Dark Yellow to Dark Brown Solid /// Application Notes: 5-Amino-1,2,3-thiadiazole, as a thiadiazole derivative, is a privileged structure in medicinal chemistry and has been investigated for anticonvulsant and antimicrobial activities. /// References: Matsumoto, T., et al.: Masakuni| PCT Int. Appl. (2006), WO 2006054652 A1 20060526| Gommaa, A., et al.: Alexandria J. Pharm. Sci., 5, 153 (1991)
