

## **2-Amino-5-(trifluoromethyl)pyridine**

Art. ID TRC-A631050-250MG  
Unit 250 mg  
Deliverydetails De Minimis UN2811 III E1

### Description

Appearance: Off-White Solid /// Application Notes: 2-Amino-5-(trifluoromethyl)? is a reagent used in the synthesis of selective inhibitors of urokinase plasminogen activator in a non-cytotoxic form of cancer therapy. /// References: Gladysz, R. et al.: J. Med. Chem., 58, 9238 (2015)|
