

N-(6-Aminohexyl)-5-chloro-2-naphthalenesulfonamide Hydrochloride

Art. ID TRC-A610500-25MG
Unit 25 mg

Description

Category: Aromatics, Inhibitors, Protein Kinase Inhibitors and Activators, Sulfur and Selenium Compounds ///
Appearance: Off-White Solid /// Application Notes: A calmodulin antagonist that binds to calmodulin and inhibits Ca²⁺/calmodulin-regulated enzyme activities. /// References: Hidaka, H., et al.: Proc. Nat. Acad. Sci. USA, 78, 4354 (1981)
