

Arachidonic Acid-d8

Art. ID TRC-A765004-1MG
Unit 1 mg
Deliverydetails No Dangerous Good /not restricted

Description

Application Notes: Arachidonic Acid-d8 is the deuterated form of Arachidonic Acid (A765000), which is an essential fatty acid and a precursor in biosynthesis of prostaglandins, thromboxanes, and leukotrienes. Arachidonic Acid occurs in the liver, brain, glandular organs, and depot fats of animals, in small amounts in human depot fats, and it is also a constituent of animal phosphatides. /// References: Kurosawa, T., et al.: J.
