

L-Ascorbic acid 2-(Dihydrogen Phosphate) Magnesium Salt

Art. ID TRC-A787015-1G
Unit 1 g
Deliverydetails No Dangerous Good /not restricted

Description

Category: Chiral Reagents, Heterocycles, Pharmaceuticals, Intermediates and Fine Chemicals /// Application Notes: L-Ascorbic acid 2-phosphate (AA2P) is a long-acting ascorbic acid derivative that stimulates collagen expression and formation and is used in human cell culture. /// References: Kurata, S., et al.: J.
