

4-Aminophenyl 2-Acetamido-2-deoxy-alpha-D-galactopyranoside Hydrochloride

Art. ID TRC-A622000-10MG
Unit 10 mg

Description

Category: Amines, Aromatics, Carbohydrates and Derivatives /// Appearance: White Solid /// Application Notes: A galactoside aminodeoxy nitrophenyl used in synthetic preparation. /// References: Petitou, M., et al.: Carbohydrate Res., 42, 180 (1975), XXX
