

## **5[(R)-(2-Aminopropyl)]-2-methoxybenzenesulfonamide Hydrochloride**

Art. ID                      TRC-A628700-1G  
Unit                            1 g

### Description

Category: Aromatics, Chiral Reagents, Drug Analogues, Intermediates /// Appearance: White Solid /// Application  
Notes: 5[(R)-(2-Aminopropyl)]-2-methoxybenzenesulfonamide Hydrochloride (Tamsulosin EP Impurity B) is a precursor in the synthesis of Tamsulosin and other alpha-androgenic antagonists.
