

1-Aziridineethanamine Hydrate

Art. ID TRC-A926960-100MG
Unit 100 mg
Deliverydetails No Dangerous Good

Description

Category: Amines, Miscellaneous Reagents /// Appearance: Colorless Oil /// Application Notes: 1-Aziridineethanamine Hydrate, is a useful intermediate. It can be used to synthesize (Aziridinethyl)aminopropyl Dihydrogen Phosphate (A926970). It is also used to prepare 17-aminogeldanamycin derivatives with possible antitumor activities. /// References: Tian, Z., et al.: Bioorg. Med. Chem., 12, 5317 (2004)
