

Ac-LEHD-AFC

Art. ID TRC-A190170-2.5MG
Unit 2,5 mg
Deliverydetails No Dangerous Good

Description

Category: Aromatics, Heterocycles, Pharmaceuticals, Intermediates and Fine Chemicals /// Application Notes: Ac-LEHD-AFC is a fluorogenic substrate that is cleaved by caspases (4,5 and 9). This activity is quantified by fluorescent detection of free AFC. Caspase-9 activation is critical for intrinsic cell death. /// References: Yin, Q. et al.: Mol. Cell., 22, 259 (2006)| Kyewhan, P. et al.: Biochem. Biophys. Res. Comm., 347, 941 (2006)|
