

Adinazolam

Art. ID TRC-A291570-250MG
Unit 250 mg
Deliverydetails No Dangerous Good

Description

Category: Amines, Aromatics, Heterocycles, Pharmaceuticals, Intermediates and Fine Chemicals /// Application Notes: Adinazolam is an antidepressant. It binds to peripheral-type benzodiazepine receptors that interact allosterically with GABA receptors as an agonist to produce inhibitory effects. /// References: Cusack, B., et al.: Psychopharma., 114, 559 (1994)| Squires, R., et al.: Neurochem. Res., 18, 787 (1993)
