

ADK Stab NA 21E

Art. ID TRC-A291810-250MG
Unit 250 mg
Deliverydetails De Minimis UN3077 III E1

Description

Application Notes: ADK Stab NA 21E is a nucleating reagent for polymerization. /// References: Thelakkadan, A. S., et al: Polypropylene composition comprising a nucleating composition comprising aluminosilicate and an organic nucleating agent, EP 3162844, (2017)|
