

(3beta)-Allopregnanolone 3-beta-D-Glucuronide

Art. ID	TRC-A547115-100MG
Unit	100 mg
Deliverydetails	No Dangerous Good

Description

Category: Glucuronides, Metabolites and Impurities, Neurochemicals, Pharmaceuticals, Intermediates and Fine Chemicals, Steroids /// Application Notes: (3beta)-Allopregnanolone 3-beta-D-Glucuronide is the glucuronide conjugate of (3beta)-Allopregnanolone (A547100), a metabolite of progesterone and potent inhibitory modulator of GABAA receptors. /// References: Martin, F. et al.: LJ Steroid Biochem., 6, 1339 (1975)| Lin, M.T. et al.: Steroids, 32, 547 (1978)|
