

4-Aminobutyl-d8 Guanidine Dihydrochloride

Art. ID	TRC-A601990-10MG
Unit	10 mg
Deliverydetails	No Dangerous Good

Description

Category: Amines Amino Acids and Derivatives /// Appearance: Pale Yellow Solid /// Application Notes: 4-Aminobutyl-d8 Guanidine is the labelled analog of the decarboxylation product of the amino acid arginine (A769500) and also an intermediate in polyamine biosynthesis. /// References: Golding, B.T., et al.: Biochem. Soc. Trans., 22, 391S (1994)
