

N1-(4-Aminobutyl)-N1-(phenylmethyl)-1,4-butanediamine Trihydrochloride

Art. ID TRC-A602520-250MG
Unit 250 mg
Deliverydetails No Dangerous Good

Description

Appearance: Light Green Solid /// Application Notes: N1-(4-Aminobutyl)-N1-(phenylmethyl)-1,4-butanediamine Trihydrochloride is an intermediate in the synthesis of sym-Homospermidine which is an analogue of Spermidine. sym-Homospermidine is used as antineoplastic. /// References: Pegg, A., et al.: Cancer Res., 48, 759 (1988), Bergeron, R., et al.: J.
