

2-Amino-5-chloro-4-methylbenzothiazole

Art. ID TRC-A604045-1G
Unit 1 g
Deliverydetails No Dangerous Good

Description

Category: Amines, Aromatics, Heterocycles, Miscellaneous Reagents, Sulfur and Selenium Compounds ///

Application Notes: 2-Amino-5-chloro-4-methylbenzothiazole is a reagent used in the synthesis of benzothiazole azo dyes which are useful for dyeing polyester fabric in scarlet tones. /// References: Hagen, H., et al. Benzothiazole azo dyes. Ger. Offen.DE 3433957 A1 19860327. Mar 27, 1986
