

2-Amino-5,6-dichloro-3(4H)-quinazoline Acetic Acid Benzyl Ester Hydrobromide

Art. ID TRC-A604760-50MG
Unit 50 mg
Deliverydetails No Dangerous Good

Description

Category: Amines, Impurities, Nucleotides, Bases and Related Reagents, Pharmaceuticals, Intermediates and Fine Chemicals /// Appearance: White Solid /// Application Notes: Anagrelide Impurity B derivative. Quinazolines derivative, attractive targets due to their many biological activities ranging from anticonvulsant and antibacterial to antidiabetic. /// References: Molamas, M.S., et al.: J. Med. Chem., 34, 1492 (1991), Brogden, R.N., et al.: Drugs, 47, 809 (1994), Brase, S., et al.: Bioorg. Med. Chem. Lett., 10, 2415 (2002)
