

2-Aminodipyrido[1,2-a:3',2'-d]imidazole Dihydrochloride

Art. ID	TRC-A608801-50MG
Unit	50 mg
Deliverydetails	No Dangerous Good

Description

Category: Amines, Heterocycles, Mutagenesis Research Chemicals /// Appearance: Greenish Yellow to Brown Solid /// Application Notes: Glu-P2 is highly mutagenic in the Ames test. Studies have shown that broiled fish, fried beef, commercial beef extracts and protein pyrrolylates contain this mutagen. /// References: Sugimura, T., et al.: Cancer, 49, 1970 (1982), Ohgaki, H., et al.: Carcinogenesis, 5, 921 (1984), Mutation Research, 187, 99-103 (1987), Sugimura, T., et al.: Mutation Research, 290, 43 (1993), Eisenbrand & Tang: Toxicology, 84, 1 (1993)
