

2-Aminoethyl Diphenylborinate-d10

Art. ID TRC-A609117-25MG
Unit 25 mg
Deliverydetails No Dangerous Good

Description

Category: Activators, Amines, Aromatics, Inhibitors, Isotope Labelled Compounds, Pharmaceuticals, Intermediates and Fine Chemicals /// Application Notes: 2-Aminoethyl Diphenylborinate-d10 is the labeled analogue of 2-Aminoethyl Diphenylborinate (A609115), a transient receptor potential (TRP) activator for TRPV1, TRPV2, and TRPV3. 2-Aminoethyl Diphenylborinate inhibits TRPC6 and TRPM8. 2-Aminoethyl Diphenylborinate may potentially be used as a therapeutic agent for pain management and treatment for diseases caused by hypersensitivity and temperature misregulation. /// References: Hu, H.Z., et. al.: J. Biol. Chem., 279, 35741 (2004)
