

(R)-Amino-(4-hydroxyphenyl)acetic Acid Methyl Ester Hydrochloride

Art. ID TRC-A611555-10G
Unit 10 g
Deliverydetails No Dangerous Good /not restricted

Description

Category: Aromatics, Miscellaneous Reagents /// Appearance: White to Off-White Solid /// Application Notes: This compound is used in the production of antiviral peptides and beta-lactam anti-biotics. /// References: Ogasa, T. et al.: Chem. Pharm. Bull., 37, 315 (1989)| Dettner, F. et al.: Angew. Chem. Int. Ed., 48, 1856 (2009)|
