

2-Amino-6-methyl-4-(trifluoromethyl)pyridine

Art. ID TRC-A618270-500MG
Unit 500 mg
Deliverydetails No Dangerous Good

Description

Category: Amines, Aromatics, Heterocycles, Intermediates /// Application Notes: An amino pyridine derivative used in the preparation of tetrameric fructose-1,6-bisphosphatase inhibitors as well as other pharmaceutical agents. /// References: Hebeisen, P. et al.: Bioorg. Med. Chem. Lett., 21, 3237 (2011)|
