

N'-(4-Aminophenyl)-N,N-dimethylacetamide

Art. ID TRC-A622650-2.5G
Unit 2,5 g
Deliverydetails No Dangerous Good

Description

Category: Amines, Aromatics, Metabolites and Impurities, Pharmaceuticals, Intermediates and Fine Chemicals ///
Appearance: Light Pink Solid /// Application Notes: N'-(4-Aminophenyl)-N,N-dimethylacetamide is a metabolite of Tribendimidine in human plasma, a new broad-spectrum anthelmintic agent. /// References: Chen, Z., et al.: Chin.
