

3-Aminopropionitrile

Art. ID TRC-A628100-1G
Unit 1 g
Deliverydetails No Dangerous Good

Description

Category: Amines, Miscellaneous Reagents /// Application Notes: 3-Aminopropionitrile is used to prepare [cyclopentyloxy(methoxy)phenyl]cyclohexane derivatives as potent and selective antiasthmatics. It is also used to synthesize Glutathione reductase inhibitors as antimalarials. /// References: Christensen, S., et al.: J. Med. Chem., 41, 821 (1998) | Biot, C., et al.: J. Med. Chem., 47, 5972 (2004)
