

5-Amino-3-(4-sulfonylphenyl)salicyclic Acid Sodium Salt

Art. ID	TRC-A629340-10MG
Unit	10 mg
Deliverydetails	No Dangerous Good

Description

Category: Aromatics, Metabolites and Impurities, Pharmaceuticals, Intermediates and Fine Chemicals /// Application Notes: 5-Amino-3-(4-sulfonylphenyl)salicyclic Acid is an impurity of mesalamine (M258100). Mesalamine is the active metabolite of Sulfasalazine (S699084). Anti-inflammatory (gastrointestinal). /// References: Friedman, G., et al.: Am. J. Gastroenterol., 81, 141 (1986), Tursi A., Expert Opin. Pharmacother., 6, 69 (2005)
