

L-2-Amino-3-[thiomethyl-1-(1-oxyl-2,2,5,5-tetramethyl-3-pyrrolin-3-yl)]propanoic Acid Dihydrochloride

Art. ID TRC-A630400-50MG
Unit 50 mg
Deliverydetails No Dangerous Good

Description

Category: Amino Acids and Derivatives, Spin Labeling Compounds, Sulfur and Selenium Compounds ///
Appearance: Light Yellow to Dark Orange Solid /// Application Notes: A synthetic spin labelled amino acid that can be used as a biophysical probe to detect structural changes in proteins and the interaction of proteins with other macromolecules. /// References: Cornish, V.W., et al.: Proc. Natl. Acad. Sci. USA, 91, 2910 (1994)
