

## **2-Amino-3,3,3-trifluoro-1-propanol**

Art. ID TRC-A630840-1G  
Unit 1 g  
Deliverydetails No Dangerous Good

### Description

Category: Aliphatics, Intermediates, Miscellaneous Reagents /// Application Notes:  
2-Amino-3,3,3-trifluoro-1-propanol, can be used for the preparation of biologically active compounds having anticancer properties. It can also be used for the capture of CO<sub>2</sub> by beta-Fluoro-substituted Monoethanolamines (MEA). /// References: Gangarapu, S., et al.: Chemphyschem., 13, 3973 (2012)|
