

4-Amino-2,3,5-trimethylphenol

Art. ID TRC-A631820-5G
Unit 5 g
Deliverydetails No Dangerous Good

Description

Category: Amines, Aromatics, Pharmaceuticals, Intermediates and Fine Chemicals /// Application Notes:
4-Amino-2,3,5-trimethylphenol has been used as a reactant for the synthesis of SUN N8075, a dual sodium and calcium channel blocker with antioxidant activity. /// References: Annoura, H., et. al.: J. Med. Chem., 43, 3372 (2000)
