

beta-Alanine

Art. ID TRC-A637320-5G
Unit 5 g
Deliverydetails No Dangerous Good /not restricted

Description

Category: Amino Acids and Derivatives, Metabolites and Impurities, Pharmaceuticals, Intermediates and Fine Chemicals /// Appearance: Off-White Solid /// Application Notes: beta-Alanine is a naturally occurring beta amino acid. beta-Alanine is formed in vivo by the degradation of dihydrouracil (D449990) and carnosine. beta-Alanine is also the rate-limiting precursor of carnosine, as a result supplementation with beta-alanine increases the concentration of carnosine in muscles. /// References: Derave, W. et al.: J.
