

2-Anthraquinonesulfonic Acid Sodium Salt-d7

Art. ID TRC-A679282-25MG
Unit 25 mg
Deliverydetails No Dangerous Good

Description

Category: Aromatics, Isotope Labeled Compounds, Sulfur and Selenium Compounds /// Application Notes: 2-Anthraquinonesulfonic Acid Sodium Salt-d7, is the labeled analogue of Anthraquinone-2-sulfonic Acid Sodium Salt (A679280), which is used as a dopant to enhance membrane integration with electrocatalysis. /// References: Zhao, F., Liu, L., Yang, F., Ren, N.: Chem. Eng. J., 230, 491 (2013)|
