

Apamin

Art. ID TRC-A726115-1MG
Unit 1 mg
Deliverydetails /not restricted

Description

Category: Amines, Chiral Reagents, Peptides, Pharmaceuticals, Intermediates and Fine Chemicals /// Application Notes: Apamin is a toxin found in bee venom. It is a potent blocker of small conductance Ca²⁺-activated K⁺ (SK, KCa₂) channels that is more effective at SK₂ than SK₁ and SK₃. /// References: Maylie, J., et al. | J.
