

### **3-Azabicyclo[3.3.0]octane Hydrochloride**

|                 |                   |
|-----------------|-------------------|
| Art. ID         | TRC-A795340-10G   |
| Unit            | 10 g              |
| Deliverydetails | No Dangerous Good |

#### Description

Application Notes: 3-Azabicyclo[3.3.0]octane Hydrochloride is a reactant in the preparation of substituted pyrimidines derivatives as novel hedgehog signaling pathway inhibitors. /// References: Xin, M. et al.: Med.
