

Acetylacrylic Acid-13C3

Art. ID TRC-A168377-25MG
Unit 25 mg
Deliverydetails No Dangerous Good

Description

Category: Isotope Labelled Compounds, Intermediates, Miscellaneous Reagents /// Application Notes: Acetylacrylic Acid-13C3 is the isotope labelled analog of Acetylacrylic Acid. Acetylacrylic Acid is an intermediate used to synthesize 2,3-Dihydroxy-4-oxopentanoic Acid which is a secondary organic aerosol. /// References: Kleindienst, T., et al.: Atmospheric Environ., 41, 8288 (2007)| Stone, E., et al.: Environ. Sci. Tech., 43, 3448 (2009)
