

Potato BASF Plant Science Non-Modified Powder (10g)

Art. ID	AOCS-0806-A
Unit	approx. 10 g
Deliverydetails	No Dangerous Good /not restricted

Description

AOCS-0806-A has been prepared by AOCS from potato tubers. AOCS-0806-A is available in 27 -mL glass headspace vials containing approximately 10 g of potato tubers. This reference material has been produced from tubers of non-modified potato (Prevalent-b conventionally-bred potato) delivered by Plant Science Sweden AB, A BASF Plant Science Comp any. The non-modified potato used in the preparation of AOCS-0806-A resulted from several cycles of self-pollination of the conventional line.
