

Soybean BASF Plant Science Non-Modified Powder (10g)

Art. ID	AOCS-0911-A
Unit	approx. 10 g
Deliverydetails	No Dangerous Good /not restricted

Description

AOCS-0911-A has been prepared by AOCS from soybean devitalized seed. AOCS-0911-A is available in 20-mL glass headspace vials containing approximately 10 g of soybean devitalized seed. This reference material has been produced from devitalized seed of non-modified soybean delivered by BASF Plant Science L.P. The non-modified soybean used in the preparation of AOCS-0911-A resulted from several cycles of self-pollination of the conventional line.
