

3-Acetopropanol

Art. ID TRC-A164020-25G
Unit 25 g
Deliverydetails No Dangerous Good /not restricted

Description

Category: Enzyme substrates, Miscellaneous Reagents /// Application Notes: 3-Acetopropanol is a substrate for alcohol dehydrogenase and is an intermediate in the synthesis of Didesethyl Chloroquine (D440960), a metabolite of Chloroquine. /// References: Ohkuma, S., et al.: J. Cell. Biol., 90, 656
