

N-Acetylcysteine Amide

Art. ID	TRC-A172195-50MG
Unit	50 mg
Deliverydetails	No Dangerous Good /not restricted

Description

Application Notes: N-Acetylcysteine Amide is used for the treatment of acquired immune deficiency syndrome and HIV infection, an antidote for an acetaminophen toxicity. Also used as authentic imaging probe for accurate tracing of cells viability from beginning to end to distinguish apoptotic and necrotic cells, A thiol-based antioxidant and a precursor of glutathione (GSH), alleviates MTX-induced platelets apoptosis and oxidative damage. /// References: Khayyat, A., et al.: Toxicol.
