

Nalpha-Acetyl-L-ornithine-d2

Art. ID TRC-A187242-25MG
Unit 25 mg
Deliverydetails No Dangerous Good

Description

Category: Amines, Amino Acids and Derivatives /// Application Notes: Nalpha-Acetyl-L-ornithine (AORN) is a substrate for the identification, differentiation and characterization of N(alpha)-acetyl-L-ornithine deacetylase(s) and of N-Acetyl-L-ornithine transcarbamylase(s) (AOTCase). /// References: McGregor, W., et al.: J.
