

Adipic Acid Dihydrazide Monomethylene Hydrazone

Art. ID TRC-A291615-100MG
Unit 100 mg
Deliverydetails No Dangerous Good

Description

Application Notes: Adipic Acid Dihydrazide Monomethylene Hydrazone is a chemical used for crosslinking water base emulsions and polymerization reactions. Adipic Acid Dihydrazide (A291595) derivative, used to functionalize magnetic nanoparticles for glycopeptide enrichment and identification. /// References: Kim, Y. et al.: Ind. Eng. Chem.
