

D-Alanine

Art. ID TRC-A480995-250G
Unit 250 g
Deliverydetails No Dangerous Good /not restricted

Description

Category: Amines, Amino Acids and Derivatives, Chiral Reagents, Pharmaceuticals, Intermediates and Fine Chemicals /// Application Notes: D-Alanine is an amino acid that is commonly found in bacteria, such as *Streptococcus faecalis*. It is essential for the biosynthesis of peptidoglycan crosslinking sub-units that are used for bacterial cell walls. D-Alanine is also known to cause cytotoxic oxidative stress in brain tumour cells. /// References: Ellsworth, B., et al.: Chem. Biol., 3, 37 (1996)| Ferrari, E. et al.: Nat.
