

## **D-Alanine Methyl Ester Hydrochloride**

Art. ID TRC-A481005-100G  
Unit 100 g  
Deliverydetails No Dangerous Good /not restricted

### **Description**

Category: Amines, Amino Acids and Derivatives, Chiral Reagents, Pharmaceuticals, Intermediates and Fine Chemicals /// Application Notes: D-Alanine methyl ester is a derivative of D-Alanine (A480995). D-Alanine is an amino acid that is commonly found in bacteria, such as *Streptococcus faecalis*. It is essential for the biosynthesis of peptidoglycan crosslinking sub-units that are used for bacterial cell walls. D-Alanine is also known to cause cytotoxic oxidative stress in brain tumour cells. /// References: Ellsworth, B., et al.: Chem. Biol., 3, 37 (1996)| Ferrari, E. et al.: Nat.
