

beta-Alanine Tert-butyl Ester Hydrochloride

Art. ID TRC-A510565-10G
Unit 10 g
Deliverydetails No Dangerous Good /not restricted

Description

Appearance: White Solid /// Application Notes: beta-Alanine Tert-butyl Ester Hydrochloride is a blocked carboxyl-terminus derivative of beta-Alanine amino acid. It is used as reactant or reagent in many syntheses such as synthesis of rhodamines from fluoresceins using Pd-catalyzed C-N cross-coupling. /// References: Grimm, J., Lavis, L.: Org. Lett., 13, 6354 (2011)
