

Allyl Cyanide

Art. ID TRC-A549770-25G
Unit 25 g
Deliverydetails ADR Excepted Quantity (EQ) / AIR Excepted Quantity (EQ) UN1992 (6.1) III E1

Description

Category: Amines /// Appearance: Yellow Oil /// Application Notes: Allyl cyanide is a substance whose toxicity originates through cyanide liberation. Allyl cyanide is also a degradation product of allyl isothiocyanate, a natural compound found in plants that have been shown to exhibit strong antimicrobial activity. /// References: Ahmed, A. & Farooqui, M.: Toxicol. Lett., 12, 157 (1982)| Lin, C. & Preston, J.: J. Food Protect., 63, 727 (2000)
