

4-Amino-D,L-benzylsuccinic Acid

Art. ID TRC-A601500-250MG
Unit 250 mg
Deliverydetails No Dangerous Good

Description

Category: Aromatics, Chelating Agents and Ligands /// Appearance: White to Off-White Solid /// Application Notes: 4-Amino-D,L-benzylsuccinic acid is a potent competitive inhibitor of carboxypeptidase. Due to its chemical stability, resistance to proteolytic degradation and ideal binding characteristics, it is a useful ligand for affinity chromatography separation and isolation of the proteolytic enzymes carboxypeptidases A and B. /// References: Byers, L.D., and Wolfenden, R.: J.
