

3-Amino-5-bromobenzotrifluorid?e

Art. ID TRC-A601585-25G
Unit 25 g
Deliverydetails No Dangerous Good /not restricted

Description

Appearance: Pale Yellow Oil /// Application Notes: 3-Amino-5-bromobenzotrifluorid?e is a general chemical reagent used in the synthesis of is a general chemical reagent used in the synthesis of trifluoromethylphenyl derivatives of methylguanidines as PET radioligands. /// References: aumiec, G. et al.: J. Med. Chem., 58, 9722 (2015)|
